Archives Portal Europe

www.archivesportaleurope.net

background information

Budapest - Hungary
7th of September 2015

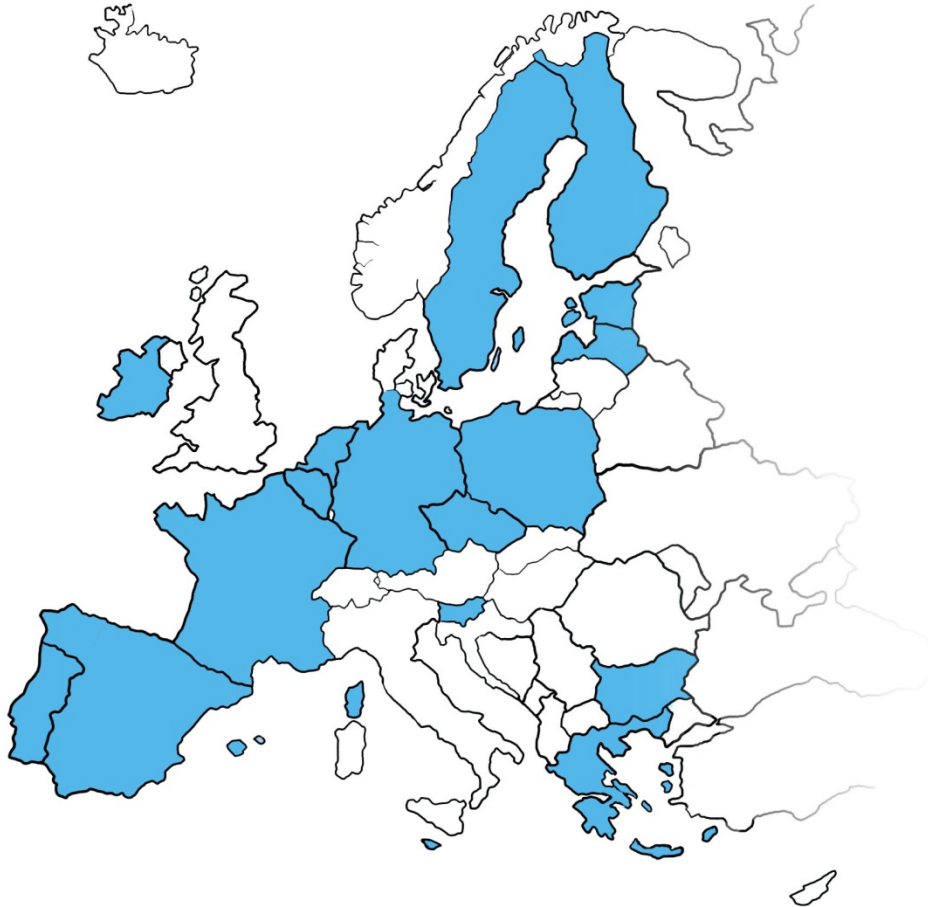

background Archives Portal Europe

- **realisation via two European projects:**
 - start: **APEnet** project: January 2009 – January 2012
 - follow up: **APEx** project: March 2012 – March 2015 > Sept 2015
 - *continuation from October 2015 onwards*: **APEF** (Foundation)
- **founding, financing:**
 - initiative: European national archivists (EBNA/EAG)
 - financing: European Commission (EC)

background: **APE**net project

- **initiated:** by the EBNA/EAG to meet the recommendations of the EC to improve cooperation between the European archives
- **funded:** by the EC within the eContent*plus* programme, with focus on the Europeana portal www.europeana.eu, thus 2 main objectives:
 - **to build one online access point to European archival descriptions and digital objects**
 - **to also act as an aggregator for the European archival domain for Europeana** (*note: only for digital objects and their metadata*)
- **scope:** aimed at establishing the portal's concept and infrastructure
→ *pilots contained mainly content of the participating national archives*

background: **APE**net project

national archives of:

- Belgium *
- Bulgaria *
- Czech Republic *
- Estonia *
- Finland
- France (WP4)
- Germany (WP1)
- Greece
- Ireland *
- Latvia
- Malta
- Netherlands (WP3)
- Poland
- Portugal
- Slovenia
- Spain (WP2+WP6)
- Sweden (WP5)

Welcome to the Archives Portal Europe

This is the pilot installation of the future Archives Portal Europe. It provides access to information on archival material from currently 17 European countries as well as information on archival institutions throughout the continent. Between now and January 15th 2012, this installation will develop both technically and in terms of content addition and we welcome your feedback which can be sent using the [contact form](#).

pilot (beta) version January 2011

View in context Match at least one word

You can search in **8169873** descriptive units linked to more than **5227679** digital archival objects from **49** institutions.

Joint access to European archives

By giving access to archival material from all over Europe, the Archives Portal Europe provides the opportunity to detect common relations in a comprehensive approach while at the same time reflecting the diversity of national and regional developments.

[Read more ...](#)

Combined search facilities

In addition to a simple full text search, the Archives Portal Europe offers an advanced search concentrating on aspects such as dates as well as a navigated search for browsing through the archival material. All approaches can be followed separately or in combination.

[Read more ...](#)

Finding aids and digitisations

An overview of the fonds and collections maintained by one archival institution is given within the holdings guides. More detailed, hierarchical descriptions of the archival material including links to digitisations can be found in the relevant finding aids.

[Read more ...](#)

Contact details and services

Within the section "Directory", information such as contact details or opening hours of the archival institutions can be consulted. This not only includes those institutions already featuring their archival material in the Archives Portal Europe, but also other institutions from the participating countries.

HOME SEARCH DIRECTORY FEATURED DOCUMENTS

current version September 2015

Welcome to the Archives Portal Europe

The Archives Portal Europe provides access to information on archival material from different European countries as well as information on archival institutions throughout the continent.

You can search in:

- 243,474,529 descriptive units of archives
- 18,661 persons and entities
- 5631 institutions

Georgia: Ancha Gospel, XII-XIII century

The Ancha Gospel is one of the unique manuscripts preserved at the National Archives of Georgia. The document was created at a time when Georgian chasing and art reached their peak. During that period different art forms were developed and educational centers were opened, where mainly literature was rewritten and translated from different languages into Georgian.

Country managers

Country managers

All countries represented within the Archives Portal Europe network are to nominate a Country Manager. The Country Manager is **the** person with thorough knowledge regarding the portal; both front- and back-end as well as the overall objective of the project. Therefore s/he will be the first contact point for Content Providers that may approach him/her regarding either their participation (administrative point of view) or the delivery of contents (technical point of view).

Wim van Dongen (National Archives of The Netherlands) is the coordinator for the Country Managers.

Archives Portal Europe

www.archivesportaleurope.net

concept

Budapest - Hungary
7th of September 2015

APEx

APEX project co-funded by the European Commission within the framework of the ICT Policy Support Programme

concept: standardise use of standards

Archives Portal Europe:

- collects and stores only metadata and links to digital objects
- uses internationally accepted archival metadata standards:
 - ISAD(G) / EAD → **apeEAD**
 - ISDIAH / EAG → **EAG2012**
 - ISAAR / EAC-CPF → **apeEAC-CPF**
 - METS → **apeMETS**
- enables conversion of APE metadata to Europeana metadata, in case digital objects are linked: **apeEAD → EDM**

APEx

[HOME](#)[ABOUT APEX](#)[CONTRIBUTE](#)[NEWS & EVENTS](#)[OUTCOMES](#)[ARTICLES](#)[TUTORIALS](#)[Tools and manuals](#) ▶ [Standards](#) ▶ [Publications](#)[+ apeEAD](#) ▶[+ apeEAC-CPF](#)[+ Mapping guidelines](#)[+ EAG 2012](#) ▶[+ apeMETS](#)

Here you can read more about

- [Tools and manuals](#)
- [Our work with implementing common standards](#)
- [Publications](#)

We will continue to add information here as the project develops.

<http://www.apex-project.eu/index.php/en/outcomes/standards>

concept: connecting standards

standardised information connects in a 3 layer model:

EAD

1. European archival landscape

→ countries / institutions

info on archival institutions

EAG

2. → holdings guides

info on records creators

EAC-CPF

3. → finding aids

descriptive units → digital objects

EAD <dao/> - <daogrp/> / METS

*conversion to **EDM** → Europeana*

concept: data providers in control

Archives Portal Europe provides:

- the Archival Landscape, including countries/institutions
- mapping stylesheets to map local standards to the APE standards
- a back-end (Dashboard) account for individual archival institutions to enable their data managers to:
 - upload/manage their metadata (EAG / EAD / EAC-CPF)
 - convert/forward info on digital archival objects to Europeana
- help → **Country Manager** → manuals / workshops / assistance

→ ***institutions will always stay in control over their own metadata***

Archives Portal Europe

www.archivesportaleurope.net

demo front-end

Budapest - Hungary
7th of September 2015

APEx

APEx project co-funded by the European Commission within the framework of the ICT Policy Support Programme

front-end: what we offer end users

Archives Portal Europe offers three ways of searching:

- a simple *Google-like search*
- a *hierarchically structured search*
- a tag cloud for *searching via themes or topics*

search results can be displayed in a *List view* or a *Context view*, and it is easy to switch between those views

within those views search results are subdivided in tabs with results in *archives* (EAD), *names* (EAC-CPF) and *institutions* (EAG)

archival descriptions are presented in the *context* of a finding aid

BIOGRAPHY

Biography: Nace en [Budapest](#) (Hungria) el 22 de octubre de 1913, muere en Thai Binh (Indochina, actual Vietnam) el 25 de mayo de 1954. Robert Capa, cuyo verdadero nombre es Endre Enrö Friedmann nace en el seno de una familia judía en [Budapest](#) (Hungria). En 1930 con 17 años es expulsado de Hungria y se marcha a Berlín en 1931 a iniciar sus estudios universitarios, en esta época trabajó como asistente de cine. En 1933 tras el ascenso de Adolf Hitler al poder, huye de Alemania. Viaja por Europa Central, recalca en Francia, asentando su residencia en París, donde pasa a ejercer su profesión bajo la denominación de "Andrés Friedmann". Este fotógrafo es el que empieza a trabajar para las revistas francesas "Vu" y más adelante "Regards". En 1936 por circunstancias varias deja de utilizar como firma de sus trabajos "Andrés Friedmann" para utilizar el seudónimo de "Robert Capa" por el cual será más conocido. Al iniciarse la Guerra Civil Española (1936-1939) pasa a España con su compañera, la también fotógrafa, Gerda Taro. Es en esta etapa donde empieza a destacar como corresponsal gráfico de guerra para el semanario gráfico estadounidense "Life" (1936-1972). Dejó constancia de la batalla de Brunete, de los frentes de

▼ BIOGRAPHY

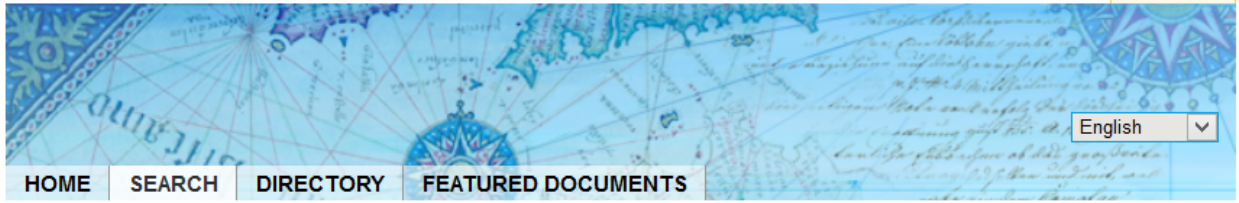

Biography: Gerda Taro nació en Stuttgart en 1910 en el seno de una familia de modestos comerciantes de origen judío. Tras una frívola adolescencia, emigró a París poco después de la subida de Hitler al poder en el año 33. Allí conoció a Robert Capa, quien sería su pareja tanto sentimental como profesional. Su obra fotográfica resulta no obstante mucho menos conocida que la de éste. Murió como consecuencia de las heridas que sufrió al caer sobre ella un tanque durante la batalla de Brunete cuando aún no había cumplido los 27 años. Muchos la consideran la primera mujer fotógrafa profesional fallecida durante un conflicto bélico.

Reproduction d'une généalogie des familles de la Serre et de Conac : branche éteinte au 17e siècle
 XVIIe siècle
[View in original presentation](#)

Scope and content

Présentation du contenu
 Généalogie établie sous Louis XIII à la demande de Léon de la Serre pour attester l'origine noble (huit quartiers) de ses filles Honorée et Marie-Barbe (seule descendance) entrées en religion dans un couvent qui exigeait au moins sept quartiers de noblesse.

Archives Portal Europe

www.archivesportaleurope.net

demo back-end

Budapest - Hungary
7th of September 2015

APEx

APEx project co-funded by the European Commission within the framework of the ICT Policy Support Programme

back-end: what we offer data providers

an institution manager account has these possibilities:

- enter information on the archival institution → via upload of an EAD/XML file or via filling in a web form
- upload/harvest EAD/XML files (finding aids) of the archival institution → via **HTTP**, **FTP** or **OAI-PMH**
- convert/validate EAD/XML files against apeEAD and index/publish them in the portal → *this can be done automatically via OAI-PMH*

optional:

- create holdings guides, apeEAC-CPF files, theme/topic mappings
- convert information on digital objects to **EDM** → *Europeana*

APE front-end (Portal) en back-end (Dashboard) have different url's

Being a registered user of the dashboard allows you f.i. to upload archival content to the Archives Portal Europe and to manage your data

E-mail address:

Password:

Drop other open sessions

If you have forgotten your password, you can get a new one [here](#).

we also have a demo version the 'Content Checker':

url front-end (Portal) APE Content Checker version:

<http://contentchecker.archivesportaleurope.net>

url back-end (Dashboard) APE Content Checker version:

<https://contentchecker.archivesportaleurope.net/Dashboard>

Manage content

Nationaal Archief Go

once logged in you have to choose for which institution you would like to manage the content, because an institution manager can manage the content of more than one institution

Content provider information

- Create EAG file
- Upload EAG file

This is your first time to enter your dashboard. It is mandatory to create a new EAG file or to upload an existing one in order to ingest content into the Archives Portal Europe.

the first time an institution manager uses his/her account he/she is asked to provide (EAG) information on the institution itself

- by uploading an EAG/XML file
- or by creating one via a webform

Content provider information

- Create EAG file

- Upload EAG file

the form is huge, but there are only 4 fields mandatory:

- Identifier / ISIL code

Your institution Identity Contact Access and Services Description Control Relations

Your institution

Person / institution responsible for the description:

Country code*:

Identifier of the institution*:

Is this your registered ISIL code? No

Add further IDs

ID used in APE:

Welcome to the Archives Portal Europe

The Archives Portal Europe provides access to information on archival material from different European countries as well as information on archival institutions throughout the continent.

Den Briel

Search

You can search in:

- 140,394 descriptive units of archives
- persons and entities
- 32 institutions

A piece of German-Hungarian history: Hungary, "The gap in the Iron Curtain"

25 years ago, socialist Hungary did much for the elimination of the Cold War's confrontation and for the enforcement of human rights. These merits were also recognised by the European Parliament.

Explore our topics:

Agriculture Education

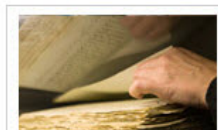

First World War GDR

GDR parties and trade ... Health

Second World War

once the finding aids are processed in the Dashboard, they are immediately available for search in the Portal, so you can also check them over there, by entering a search term

Joint access to European archives

By giving access to archival material from all over Europe, the Archives Portal Europe provides the opportunity to detect common relations in a comprehensive approach while at the same time reflecting the diversity of national and regional

Combined search facilities

In addition to a simple full text search, the Archives Portal Europe offers an advanced search concentrating on aspects such as dates as well as a navigated search for browsing through the archival material. All approaches can be followed

[Creation of a holdings guide](#)

No results found

a holdings guide can be created in the back-end:

- switch the “Content manager” screen to “Holdings guide”-modus
- click on the link: “Creation of a holdings guide”

option 1

Empty title

Edit data

Identifier (element <unitid>):

Title (element <unittitle>):

Description (element <scopecontent>):

... a dialogue screen appears in which you can enter an identifier, a title and a description for your holdings guide ...

option 1

- Selection of archives
 - 1. Governmental archives before 1795
 - 2. Governmental archives after 1795
 - 3. Governmental archives of the province of South of Holland
 - 4. Collections of maps and drawings

- Edit current level
- Add new level
- Delete selected item (and children)
- Quit (the holdings guide is automatically saved after each action)

... clicking on “save” opens the possibility to add extra levels to this root level of the holdings guide and via this functionality you can create a hierarchical structure ...

... once the structure is to your satisfaction, clicking on “Quit” saves the holdings guide in the Dashboard

 - 4.VTHR Inventaris van het eerste en tweede supplement der verzameling Binnenlandse Kaarten Hingman
 - 4.ZHPB4 Inventaris van de verzameling Ernsting afkomstig uit de provincie Zuid-Holland
- Norway
- Switzerland

... the holdings guide is available in the structured search of the Portal and so are all connected finding aids

option 2

Content provider information

- View/modify EAG file
- Upload EAG file
- Download EAG file
- Change institutions name
- Set feedback e-mail address

Content information

- Preferences for uploaded files
- Create automatic harvesting function
- Upload content
- Create EAC-CPF**
- Content manager
- Manage topic mappings

since the last major release of the Archives Portal Europe it is possible to search through information on records creators in (ape)EAC-CPF format ...

... in case an archival institution does not have files on records creators it can produce those in the Dashboard via a webform ...

option 2

Create a file for record creators (apeEAC-CPF)

Create instance for: a person a corporate body a family

Please set the default language and script for this file (this can be individually changed for each item later)

Select default language for this file: Select default script for this file:

Go Exit

... first you have to choose for which type of entity you want to enter information:

- a person
- a corporate body
- a family

... and you also have to indicate in which language/script you are going to describe this entity ...

option 2

Identity Description Relations Control

Description of a person

Name

Full name or part of the name:* Part of the name:

Add further parts

Form of the name: Select a language:

Add dates of use for the name:

Add further names

Authorised identifier

Authorised identifier of the person: Authority agency:

Add further authorised identifiers

Date(s) of existence*

Timespan from:* to:*

Date(s) is/are: known unknown known unknown person is alive

Standardised dates: - - YYYY - MM - DD - - YYYY - MM - DD

Next tab

... then you are offered a webform to provide all relevant information on the entity

option 3

Content provider information

- View/modify EAG file
- Upload EAG file
- Download EAG file
- Change institutions name
- Set feedback e-mail address

Content information

- Preferences for uploaded files
- Create automatic harvesting function
- Upload content
- Create EAC-CPF
- Content manager

Manage topic mappings

since the last major release of the Archives Portal Europe it is possible to connect finding aids to the themes or topics of the tag cloud on the homepage ...

option 3

Search

You can search in:

- 1,153,277 descriptive units of archives
- 3 persons and entities
- 432 institutions

Explore our topics:

Agriculture

Education

First World War

GDR

GDR parties and trade ...

Health

Second World War

[View all our topics](#)
